

New Software Version 1.28 for FFD 2.5" & 3.5" IDE Plus

Product Update, July 2004

Description

A new software version 1.28 has been released for FFD 2.5" and 3.5" IDE Plus. This version replaces the current software version 1.27. The main change is improved power management.

Ordering Information

The new software version is applicable for the following products:

Product	Capacity (MB)	Updated Ordering Information
FFD 2.5" IDE Plus	All capacities	FFD-25-IDEP-CCCC-T-H CCCC - Indicates disk capacity T – Indicates operating temperature range H – Indicates the case height
FFD 3.5" IDE Plus	All capacities	FFD-35-IDEP-CCCC-T CCCC - Indicates disk capacity T – Indicates operating temperature range

Reason for Change

The new software version provides improved power management.

Availability

FFD 2.5" and 3.5" IDE Plus will be shipped with software version 1.28 from July 15, 2004. Customers that prefer to keep the previous software version 1.27 for new ordered units must notify M-Systems. Special ordering information will be provided to indicate that the FFD 2.5" and/or 3.5" IDE Plus have been shipped with the requested older software version.
